

Integrate non-directory SAML app

Note: <u>Check our app directory</u> to see if the app you need is already integrated with Zoho One.

- 1. Sign in to <u>Zoho One</u> ∠, then click **Directory** in the left menu.
- 2. Go to Applications, then click Add Application.
- 3. Under *Non-Directory App*, click **Add**.
- 4. Name the app, and enter a description if needed.
- 5. Click **Select SSO mode**, then select **SAML** under *Sign-In Type*.
- 6. Enter all SAML details.
- 7. Perform attribute mapping, if it's necessary for the app you're configuring.
