Near Me

The Near Me feature enables you to find prospects within a chosen radius. You can either choose your current location or a location on the map as the center.

Note: The Near Me filter remains applied while changing views as well. It can be applied to a maximum of 2,000 records. If there are more than 2,000 records in the radius, the 2,000 records closest to you are selected.

Finding nearby records using Near Me

1. Tap on the **Near Me** button and enable location permission on your mobile phone.

2. Tap on the **Near Me radius** and choose a radius within 100 km/miles. By default, the radius is set to 5 km miles.
