

Automated Route Planning

^ Table of contents

- **Prerequisites to enable Automated Route Planning**
- **Enabling Automated Route Planning**

Save time and remove the hassle of planning routes manually for your daily meetings by automating route planning.

Prerequisites to enable Automated Route Planning

- The Meetings module must be integrated with RouteIQ.
- Users should individually enable it for their RouteIQ account.

Enabling Automated Route Planning

1. Enable Automated Route Planning from the settings menu.

📄 Routes will be automatically created everyday at 1 AM (your local time). Routes will not be created instantaneously.
