

## **Configure Domains**

The list of domains validated for unattended access will be displayed here. You can add, manage, and configure domains.

- 1. Navigate to **Settings** > **Unattended access** > **Domains**.
- 2. All domains will be displayed by default.
- 3. Click **Add** to add and validate a new domain.

🖒 Assi	st Remote Support	Unattended /	Access Meeting	AR Assistance Reports	Settings					All Departments	ᅶ	با 🌔
