

Importing data from Spreadsheet.com

With Zoho Tables, importing data from your Spreadsheet.com account becomes seamless and simple. You can streamline your workflow with a simplified migration process and pick up your work from right where you left off.

To import data from a Spreadsheet.com account:

- 1. Click + **ADD BASE** at the top of the *Bases Listing* page, where all the bases in your workspace appear.
- 2. From the list of options, choose **Spreadsheet.com**.

*						Q Find a base	
∃ Works	space Name			J= Modified Time >		+5 + ADD BASE -	
	Daily work Mar 27, 2023	:	Tables Work Mar 02, 2023	:	Automat Jan 27, 20	Templates Import Empty Base	
	Data Grid Work Jan 09, 2023		Requirements Jan 09, 2023	:	Tables C Jan 04, 20	Import non other source Import non other source	

3. You'll be shown a confirmation to connect your Spreadsheet.com account with Zoho Tables. Click **CONTINUE**.

	Q Find a base						
	≡ Workspace Name	↓ ⁼ Modified Time ∨	84	+5	+ ADD BASE X		
r	< >> Spreadsheet.com						
	**						
	Login with Spreadsheet.com to authorise integ	ration with Zoho Tables.					
	To proceed further, choose Continue after reading th understanding the data usag	e terms and conditions and ge.					
	CANCEL CONTINUE						

4. After confirmation, you'll be redirected to the Authentication page, where you'll need to enter the API key

from Spreadsheet.com.

202	
Service Name Spreadsheet Provide the following authentication credentials to connect to	
the service. Enter API Key In The Format: Bearer <api_token></api_token>	
Connect Cancel	

5. To obtain the API key, log in to your Spreadsheet.com account. Click on your profile and go to **Personal**

Settings.

- 6. On the Personal Settings page, go to the API Keys section.
- 7. Click the **Generate API key** button at the top right. A pop-up window will then show you the generated API key.
- Copy the API key and paste it on the Zoho Tables *Authentication* page, in the format *Bearer*<*space*>*API key* (Eg. Bearer 9adj4inasdfi4). Click **Connect**.
- 9. Once authenticated, click **Choose Workspace** from the *Import Base* pop-up window. From the dropdown menu, choose the workspace from which you wish to import. Then, click **Choose Base**.
- 10. The bases in the chosen workspace will be listed in the dropdown menu for you to choose from. Once you've chosen the workspace and the base you want to import, click **NEXT**.

- You'll see a list of modules configured from your Spreadsheet.com account in the floating window in Zoho Tables. Choose the desired modules.
- 12. From the chosen modules, choose the fields that you want to import to Zoho Tables. Each field from Spreadsheet.com will automatically be detected and matched to the fields in Zoho Tables.
- 13. After choosing the desired modules and fields, click **Import**. This will import the selected fields from every module in Spreadsheet.com to a new base in Zoho Tables.

(i) Some field types might not import in the same format as in Spreadsheet.com, and will be stored as text fields. You can always change them to the desired field types available in Zoho Tables.
