

Making a Portal as Home

To make a particular Portal as Home, go to the **MY PORTALS** Page, and click on the three red dots (More Options). Select the **Make as Home** option. Once you configure a portal as home, that particular Portal will open each time you open <u>tables.zoho.com</u>. When you make a Portal as home, the home icon will be displayed near it.

The process is shown in the Gif below:
